

## **Beware of Scams**

Winchester Utilities would like to make you aware of scams that have been brought to our attention. One is a phone scam where the caller states his name and location and says he is calling on behalf of Winchester Utilities concerning a past due utility account. He also states that he is to collect the money or the customer will be disconnected.

### **Winchester Utilities will not request payment for utilities over the phone**

Some customers have received letters in the mail offering insurance for service line replacement. Winchester Utilities is not sending out these letters and has no affiliation with those who are sending out these letters.

**Call a Customer Service Representative  
@ 931-967-2238 if you have any questions**
