Winchester Utilities *energy right*[®] Programs

New Homes

A home in the energy right[®] Program lets you spend less each month on energy bills, so you have more to spend on other things that make life more comfortable.

Rebates of \$200 for energy right or \$300 Platinum energy right per qualifying new home. Winchester Utilities will furnish an inspection and a home energy rating at no cost to the customer to determine qualification. The home must be all electric with an electric or dual fuel heat pump and electric water heating. (Gas logs accepted) Advanced water heaters for new homes have a \$100 in addition to the new home rebate. Ask us for details.

Electric Water Heaters for Existing Homes or Small Business

Enjoy the benefits of hot water heated with an electric water heater in the energy right Program.

Rebates of \$100* when you buy and install an electric water heater for your single family home or small business.

Electric Heat Pumps for Existing Homes

An electric heat pump in the energy right[®] Program is the most comfortable and efficient way to heat and cool your home.

- **Finance** for up to 10 years at 8% interest, zero down, with loan approval and a small loan application fee on heat pumps.
- **Rebates** of \$150* on 12 SEER or greater Split Unit, or an 11 SEER or greater Package.
- Heat pump must be installed by an approved heating / air conditioning contractor, ask for a list of Qualified Contractors.
- Winchester Utilities will furnish an inspection of the heat pump after installation at no cost to the customer.

For details or to apply, visit Winchester Utilities or call 967-2238. *Rates apply as of April 2007 and are available only for Winchester Utilities customers/builders.
